PROFESSIONAL EXPERIENCE

Oklahoma State University, International Students & Scholars Office
Data Analyst/Tech Graduate Research Assistant **Jan 2017 – Dec 2018 (2 years)**

- Frequently used SQL to retrieve schemas from university databases in order to join them and clean data to make sure data is valid and consistent before analysis.
- Created innovative SAS code and Python script to automate generated weekly reports on confidential student information, insurance, and immigration data.
- Took initiative to suggest and design interactive dashboards using Tableau for the manager to better visualize data for trends and outliers.
- Utilized Google App script and AJAX to automate visa-related applications, orientation quizzes and university-wide transfer services.
- Collaborated with coworker to develop and implement a flutter-based Android/IOS app to scan barcodes with Spring boot service to receive and process data, resulting in increased efficiency of check-in process for students up to 50%.
- Maintained a clean and accurate official website for the office by performing recurrent content updates.
- Produce an Open Door report annually to Institute of International Education (granted by Bureau of Educational and Culture Affairs at – The U.S Department of State).

Oklahoma State University, International Students & Scholars
Data Entry/Tech Student Worker **Jun 2016 – Dec 2016 (7 months)**

- Assisted staff to swiftly sort and register incoming students each semester.
- Logically compiled and organized new international students' files for university record-keeping.
- Professionally established and configured staff computers and office equipment as IT support.
- Coordinated with manager during staff transitions into respective offices.
